These selected paragraphs distill the contents and give you a quick look inside The Communist Manifesto: Look inside the book: An oppressed class under the sway of the feudal nobility, an armed and self-governing association in the mediaeval commune; here independent urban republic (as in Italy and Germany), there taxable third estate of the monarchy (as in France), afterwards, in the period of manufacture proper, serving either the semi-feudal or the absolute monarchy as a counterpoise against the nobility, and, in fact, corner-stone of the great monarchies in general, the bourgeoisie has at last, since the establishment of Modern Industry and of the world-market, conquered for itself, in the modern representative State, exclusive political sway. ...If the proletariat during its contest with the bourgeoisie is compelled, by the force of circumstances, to organise itself as a class, if, by means of a revolution, it makes itself the ruling class, and, as such, sweeps away by force the old conditions of production, then it will, along with these conditions, have swept away the conditions for the existence of class antagonisms and of classes generally, and will thereby have abolished its own supremacy as a class. About Karl Marx, the Author: 77 Although Marx was constantly being pulled away

from his study of political economy by the usual daily demands on his time that everyone faces, and the additional special demands of editing a radical newspaper and later by the demands of organizing and directing the efforts of a political party during years in which popular uprisings of the citizenry might at any moment become a revolution, Marx was always drawn back to his economic studies. ...109 Hoping to see the revolution spread to Germany, in 1848 Marx moved back to Cologne (Koln) where he began issuing a handbill entitled the Demands of the Communist Party in Germany, in which he argued for only four of the ten points of the Communist Manifesto, believing that in Germany at that time, the bourgeoisie must overthrow the feudal monarchy and aristocracy before the proletariat could overthrow the bourgeoisie.
