

The Rise of Life on Earth (New Directions Paperbook)

THE RISE OF LIFE ON EARTH

Joyce Carol Oates

Like most important writers Joyce, Proust, Mannshe has an absolute identification with her material: the spirit of a society at a crucial point in its history. Walter Clemens, Newsweek Selected by The New York Times Book Review as one of the most notable books of 1991, Joyce Carol Oates The Rise of Life on Earth is a memorable portrait of one of the insulted and injured of American society. Set in the underside of working-class Detroit of the 60s and 70s, this short, lyric novel sketches Kathleen Hennessy violent childhoodshattered by a broken home, child-beating, and murderand follows her into her early adult years as a hospital health-care worker. Overworked, underpaid, and quietly overzealous, Kathleen falls in love with a young doctor, whose exploitation of her sets the course of the remainder of her life, in which her passivity masks a deep fury and secret resolve to take revenge.
