

## De La Tierra A La Luna (Biblioteca Edaf Juvenil) (Spanish Edition)

Los Viajes extraordinarios de Verne aspiraban a convertirse en una ambiciosa epopeya, cuya definicion mas precisa dio el propio autor: Un paseo completo por el cosmos de un hombre del siglo XIX. Tras este objetivo, Verne exploraria la tierra y sus profundidades, el mar y el aire, con historias tan memorables como la del Nautilus y su capitan Nemo. De la Tierra a la Luna, que pertenece a la epoca idilica de su fe en la ciencia, narra con notables dosis de humor e ironia la preparacion y envio a la Luna de un gigantesco proyectil. Y no se sabe que admirar mas en la novela: si el divertido desarrollo de la historia, o la sorprendente exactitud de la mayoria de sus previsiones.
